

NAVY PROGRAMME UNDER HOT FIRE

Country Gone Mad Over Spirit of Militarism, Declares Texan.

PLEA MADE FOR ECONOMY

Butler Warns Country That It Must Keep Close Watch on Japan.

(By Associated Press.)
WASHINGTON, Feb. 15.—The question of what the policy of the government should be with respect to the upbuilding of the navy was again threshed out in the House to-day, during the consideration of the naval appropriation bill, the debate developing much opposition to the proposed addition of two battleships to the naval establishment. As on yesterday, the defense of the Philippines played an important part in the discussion, while the events of the war in the far East, from a naval point of view, were given prominence by the advocates of an increased navy. The House met an hour earlier than usual, and with the exception of a brief period the entire time was consumed with the naval bill.

Country Gone Mad.
Mr. Beall (Texas), in opposing large appropriations for the navy and army, declared that the United States had gone mad over the spirit of militarism, which was sapping the substance of the people. The government was paying as much attention to "ceremonies, pomp and circumstance" as to the most important government in the world.

A plea for economy in the appropriation was made by Mr. Sparkman (Florida), who prophesied that in the next generation, not possibly in the next year, would this country become involved in a war between any of the great world powers.

Entertaining a similar sentiment, Mr. Perkins (New York) ventured the assertion that no gun on any ship now in commission or on the two battleships proposed by the bill, if they were authorized, would ever fire a hostile shot. He provoked a sharp discussion by declaring that warships disintegrated inside of twenty years.

Mr. Brick (Indiana) took issue with him and cited the Texas, while Mr. Rixey (Virginia) maintained that the armaments of Mr. Perkins's position by stating that high naval officers had declared most of the warships now in the service to be obsolete, and of no account. The statement was flatly controverted by Mr. Dayton (West Virginia), who declared that there was not a single naval officer who would say the ships in the American navy were antiquated and out of date.

The principle of upholding the Monroe Doctrine through battleships, was declared by Mr. Thayer (Massachusetts) to be unnecessary, "since," he said, "we are protected by the ocean, and with the exception of the other end of the avenue, who don't require any battleship of law whatever to back him up."

Keep Eye on Japan.
Mr. Butler (Pennsylvania), turning to the subject of the Philippines, elicited Democratic applause when he said he hoped there would be found some honorable way to get rid of them. He advised this assembly to keep a point of view on Japan. He said that while we were "now friendly and loving each other and agreeing," the war with Russia would be over some day and then it would be discovered "that the fighting man of the earth lives in the island of Japan, five days from the Philippines, and thirty-five days from the United States."

Mr. Cockran (New York) opposed the idea of a large standing army or a big navy. Referring to the Venezuelan dispute with England, Mr. Cockran declared that the greatest triumph ever won in the history of the United States was when Secretary Olney wrote a dispatch affecting the greatest power in the world, when the navy was about one-fifth its present size.

The House voted down an amendment offered by Mr. Rixey (Virginia) striking out the proposed increase of 3,000 men for the navy, although on a point of order by him the provision permitting their immediate enlistment was stricken out.

The House, without completing the bill, adjourned until to-morrow.

THE SENATE.

Newspaper Man Says He Submitted Report to Swayne.

(By Associated Press.)
WASHINGTON, Feb. 15.—The Senate to-day continued, but did not conclude consideration of the bill making appropriations for the support of the government of the District of Columbia. While the bill was before the Senate Mr. Ekins took exception to an item for the construction of a local bridge as being in the interest of speculators and made a general plea for economy in the matter of appropriations.

The Swayne impeachment trial held the attention of the Senate for two hours. Reverend Mend Wilson, Martin D. Merritt and Henry F. Webb, conductors on the Louisville and Nashville Railroad, testified that Judge Swayne is in the habit of riding on that road on passes, but Mr. Wilson said that when the Congressional Committee was in Florida investigating the Swayne case and Judge Swayne was traveling with them he paid his fare.

E. J. Davis again related the circumstances contained with the contempt proceedings against himself, Paquet and Belden. J. J. Hooten, a real estate man, told how he came near selling to Judge Swayne the land in controversy on which the contempt case arose, and Don

What To Do For Heart Trouble

I back up my advice with this Remarkable Offer—A Full Dollar's Worth of my Remedy Free to Prove that I am Right.

I ask no reference, no deposit, no security. There is nothing to promise, nothing to pay. Either now or later. To you and to others who have not tried my remedy—Dr. Shoop's Restorative—I will gladly give, free, not a mere sample, but a full dollar's worth.

I am warranted in making this unusual offer because this is no ordinary remedy. It does not merely try to stimulate the heart. Such treatments are worse than useless. It goes straight to the cause of all heart trouble—the heart nerve—and strengthens them and vitalizes them and restores them. Then that is the end of the disease.

For the heart itself has no more self control than a common sponge. It is made to beat by a tender nerve so tiny that it is scarcely visible to the naked eye. Yet ten thousand times a day this delicate nerve must cause the heart to expand and contract.

The heart is also the size of your clenched fist. It is made to beat a dozen times a minute, and you will see the monstrous labor this little nerve must do.

The heart nerve is one of the branches of the great sympathetic nervous system. Each branch of this system is so closely allied with the others that weakness of irregularity at any point is apt to spread. Heart trouble frequently arises from disease of the stomach, sympathy, and kidney trouble may also follow. For each of these organs is operated by a branch of the same sympathetic nerve—the inside nerve.

The bond of sympathy between the nerve that operates the vital organs has a useful purpose, as well. For what will cure weakness in one branch will surely cure weakness in every branch. What will restore one center will surely restore them all. This—nothing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge—to put to practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not cure the heart, but it cures the cause. It is open and frank and fair. It is the supreme test of a free medicine. All that I ask you to do is to write to me to-day.

For a free order for Book 1 on Dyspepsia, a full dollar bottle Book 2 on the Heart, must address Dr. Book 3 on the Kidney, Book 4 on the Liver, Book 5 on the Stomach, Book 6 on the Bladder, Book 7 on the Prostate, Book 8 on the Testes, Book 9 on the Uterus, Book 10 on the Vagina, Book 11 on the Ovaries, Book 12 on the Menstruation, Book 13 on the Childbirth, Book 14 on the Lactation, Book 15 on
